

Custom Products and Fabrication Division

Pipe • Fittings • Machined Components

Your Experts™ in Plastics

Asahi/America's team of craftsmen in our Lawrence, MA and newly acquired Gramercy, LA facilities are poised to create custom pipe spools, fittings and accessories in a wide range of corrosion resistant thermoplastic materials.

Supported by our application engineers and CAD design professionals our experienced staff is able to create custom pieces to meet your applications requirements.

From concept to completion, we can meet your needs.

- Two Fully Staffed Fabrication Shops
- Custom Solutions
- Small or Large Quantities

- State-of-the-art Welding Equipment
- Latest CNC Machines
- Quick Turnaround from Concept to Completion

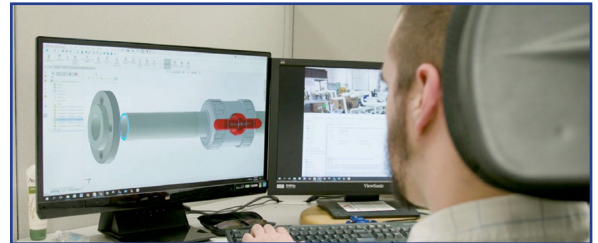

System Design

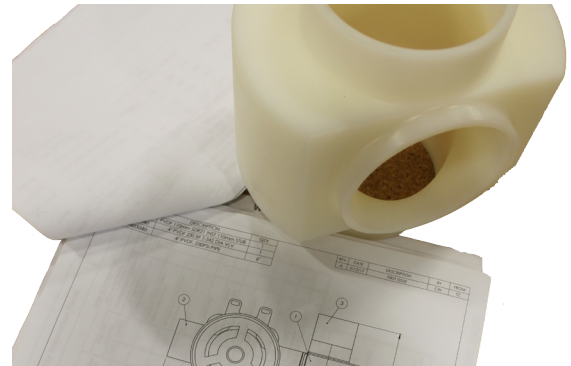

See it before we build it. Our CAD experts can create virtual drawings of your custom designed system or products before they are manufactured.

Our application and product engineers are at your disposal to help you design your system and choose the proper materials for your project.

- CAD Design
- Virtual Drawings and Models
- On Site System Layout Planning

- Custom Fittings and Spools
- Design Assistance for Materials Selection and Compatibility

- Project Estimating Services
- Fabrication and Engineering Services
- Project Planning Services

Pre-Fabricated Pipe Spools and Custom Fittings

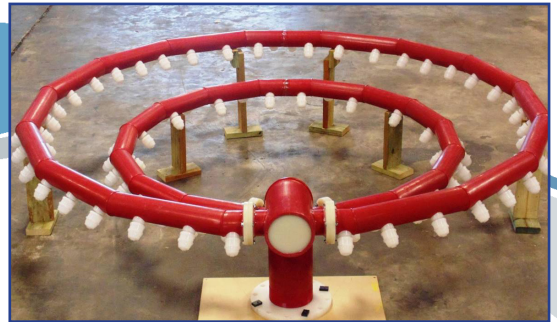

We can do the welding for you in our shop. You'll receive spools complete with valves and fittings minimizing the number of welds required in the field.

We will work with you to create spools and custom fitting in PPL, PVDF, ECTFE, HDPE, PVC, CPVC, and PTFE.

- Pre-Fabrication Assemblies and Spools
- Large Diameters up to 24"
- Single and Double Contained Pipe, Valves and Fittings

- Headers and Manifolds
- Dip Pipe and Spargers

Components, Fabricated Items and More

Large to small, single to multiple units, our designers, engineers and craftsmen will work with you to create customized thermoplastic products accessories

From concept to completion, we will make sure that your needs and requirements are met!

- Duct Systems
- Fume Hoods
- Lab Sinks

- Manholes, Sumps and Catch Basins
- Spacers and Orifice Flanges
- Spectacle Blinds

- Storage Tanks
- Tank and Vat Covers
- Valve Boxes and Vaults
