Subject: Discontinuation of Existing Multi-port Ball Valve
Item: 1/2" – 4" PVC & CPVC Multi-Port Ball Valve

In order to meet [the latest industry requirements](#), and customer demands we have re-engineered the Multi-Port ball valve. This will result in the [discontinuation of the current style](#), and an Introduction of [our New Type-23 Multi-Port ball valve](#). The [New Type-23](#) will first be available in [PVC&CPVC](#).

[PVC&CPVC Multi-Port Ball Valves \(1/2"-4"\)](#) will be discontinued effective [6/2/03](#). These Multi-Ports will [be replaced by the Type-23 Multi-Port Ball Valve](#), which has many added Features and Benefits as outlined below. (PP&PVDF versions to be re-engineered in the near future)

Inventory:

We will begin shipping the New Type-23, as old style Multiport inventory is depleted, on or about 5/1/03.

Parts Availability:

We will be able to supply [replacement parts](#) for a period of [five years](#) effective the 3rd quarter of 2003.

Pricing:

The New Type-23 valve will be [priced the same](#) as the old Multi-Port, even with the [additional features and benefits](#).

Interchangeability:

The Type-23 (1/2"-2") will not have [parts or face to face dimension interchangeability](#). (3" & 4" will have face to face interchangeability only)

[Flanged models](#) will have face to face dimension interchangeability only, but no parts interchangeability.

Features and Benefits:

Built-in Spanner Wrench:

Valve handle [doubles](#) as carrier adjustment or removal [tool](#) when maintenance is required.

Double O-ring Stem seals:

The Type-23 has Double O-ring stem seals [that increase operator safety](#) in severe applications.

ISO Mounting Pad:

The Type-23 valve has an integral molded ISO mounting pad. Simple removal of the handle permits easy mounting of accessories or automation, with no valve modifications required.
